

Sustainability Drinks Australia

Media Release

Launch of Adelaide Sustainability Drinks

October 2008

The third Wednesday of November will see the launch of Adelaide Sustainability Drinks.

Following the overwhelming popularity of Melbourne Sustainability Drinks and interest from South Australia, we are launching Adelaide Sustainability Drinks in Adelaide's CBD.

This popular sponsor free monthly event will be held at Saldechin. Saldechin restaurant on King William St, is the selected venue for the pioneering gathering on November 19th 2008, 6pm – 8pm.

This event provides an opportunity to meet other people interested in creating a more sustainable future, exchange ideas and hear different perspectives about the social and environmental challenges we face. It brings together a wide range of passionate people who are interested in making a positive difference.

The event is non-sponsored (ie: you buy your own drinks!) and the atmosphere enables people to introduce themselves and feel comfortable with meeting new people and exchanging ideas.

Anyone with a passion for creating a more sustainable society is welcome to attend! As space is limited it is essential to rsvp via www.adelaidesustainabilitydrinks.com
